

Dear Colleague,

As we commented in a previous e-mail, it is a privilege to invite you to the **CIO 2012, 6th International Conference on Industrial Engineering and Industrial Management** and the **XVI Congreso de Ingeniería de Organización**, to be held at the Industrial Engineering School of the University of Vigo (Spain) **from 18th to 20th July 2012**, under the slogan **Industrial Engineering: overcoming the crisis**.

The **6th International Conference on Industrial Engineering and Industrial Management** draws together the different disciplines framed in organization engineering from an international outlook. The official language of the 6th Conference will be English. Presentations will be oral or poster.

All papers accepted at the **6th International Conference on Industrial Engineering and Industrial Management** will be published in proceedings books with ISBN, both in hard copy (abstracts) and in electronic format (full papers). Both ADINGOR and the congress organization are also working to give visibility to the works presented. Thus, a selection of the best papers will be published in leading scientific journals (so far, **Journal of Industrial Engineering and Management, International Journal of Computers, Communications and Control (JCR)**). Likewise, a selection of papers will be published by **Springer** in a book (**Annals of Industrial Engineering**).

Taking the above into consideration, we believe that your participation and attendance at the CIO 2012 would be especially interesting. So we urge you to note the **new key dates** in your agenda, bearing in mind some changes in relation to the previous e-mail. These new dates are associated to a re-organization of the review process that now only considers **the full paper (8 pages; Springer format)**.

Full paper submission: 26th February 2012

Communication of acceptance/rejection: 29th April 2012

Deadline for early payment: 15th May 2012

CIO 2012 dates: 18th-20th July 2012

Shortly we shall be completing and updating the information on the congress on the website: www.cio2012.org. You may also follow us on Twitter (<https://twitter.com/#!/cio2012>).

Finally, we can be contacted on the e-mail: cio2012@uvigo.es for any queries or comments.

Best regards,

José Carlos Prado Prado
Chairman of the Organizing Committee of the CIO 2012, 6th International
Conference on Industrial Engineering and Industrial Management
